Administration of Union Territory of Dadra and Nagar Haveli
Electrical Sub-Division
Electricity Supply Tariffs

Silvassa, the 11th November, 1973

Electricity Supply Tariffs effective from:—1st January, 1974.

No. ADM/PWD/ELE/Tariffs/102—In exercise of the powers conferred by Section 23 read with Section 51A of the Indian Electricity Act, 1910 and in supersession of all the existing orders the Administrator of Dadra and Nagar Haveli is pleased to frame the following revised Electricity Supply Tariff for the entire Union Territory of Dadra and Nagar Haveli. These revised Tariffs will come into force with effect from 1st January, 1974.

I. General Conditions.

1. These tariffs are subject to revision by the Administration from time to time.

2. These tariffs are subject to the terms and conditions for power supply approved from time to time by the Government.

3. Supply of power in all cases is subject to execution of agreements by consumers.

4. Unless otherwise agreed to these tariffs are applicable to each point or supply for installations which are located reasonably near to the power lines and feeders of the Electricity Department.

5. As a general rule, no Lower Voltage Service will be given where the connected load per service is over 100 KVA nor High Voltage Service will be given where connected load is less than 100 KVA. Exceptions may be made in special case at the discretion of the Administration.

6. If energy supplied for a specific purpose under a particular Tariff is used for a different purpose not contemplated in the contract for supply and/or for which higher tariff is applicable, it will be deemed as misuse and stealing of energy within the meaning of the Indian Electricity Act, 1910. In such a case, the energy consumption bills already rendered for the service shall be revised changing at the appropriate higher tariff from the date of connection unless convincing reasons are adduced thereof for adopting a different period. The imposition of his higher tariff will not relieve the consumer from any penalties imposed by the law.

7. Consumers are liable to have electric supply disconnected after seven days notice if bills are overdue for more than the permitted period without prejudice to the rights of the Electricity Department to recover the amounts of the bills and surcharges thereon.

8. Consumers requiring supply for loads not covered by these tariffs and also electro-chemical and electro-metallurgical industries which are electricity intensive, may negotiate for special tariff with the Electricity Department.

9. In cases of doubts or anomalies in respect of categorisation of any consumer, the decision of the Administration shall be final.

Revised Tariff for consumers of Electricity in Dadra and Nagar Haveli.

Standard Rates and Charges for Electricity Supply:—

TARIFF SCHEDULE—I.

Domestic and Commercial Consumers.

Light, Fans and Power appliances for domestic and commercial premises like shops, business houses, offices, Education Institutions, public buildings, religious places, hotels, hostels, cinemas and similar premises.
